EXPERIENCE

Verity Group — *Developer*

October 2019 - Present

I've worked on an international project focused on large cities mobility issues based on React Native, React and NodeJS. Mainly doing front-end tasks.

AIQON — *Developer*

Somewhere in 2018 - October 2019

Full Stack developer. My biggest task was to create the company's new website in order to facilitate the acquisition of visitor leads and get a working blog up and running.

I had a lot of fun!

AIQON —Technology Intern

March 2018 - Somewhere in 2018

I started at AIQON as an international tech support agent and soon began to pull small development tasks into my plate.

EDUCATION

Centro Universitário SENAC — *Systems Analysis*

June 2018 - Sometime in the future

Centro Paula Souza — Information Technology

January 2016 - July 2017

Apple Developer Academy — *Swift Essentials*

June 2019 - July 2019

Polly Educational Center — *Graphic Design*

January 2013 - December 2015

SKILLS

I've worked as a graphic designer for a few years and eventually got myself into Front-end development, although I've played a bit with NodeJs and iOS using Swift, too. Currently learning Flutter.

MYSELF

I'm 21 years old, living in the south area of São Paulo.

I spend most of my free time playing games, consuming tech and listening to music.

LANGUAGES

Portuguese, English
